Creating an EasyVista ticket4

Overview

This user guide includes information about navigating the EasyVista Service Management portal. You can submit access requests for the applications available on StreamOne Operations Hub.

Key features

- **Submit Access Requests:** Request access to applications in the StreamOne Business Operations Hub, such as, StreamOne Insight, Cloud Credit Connector, and Cloud Billing Connector.
- **Track Request Status:** Monitor the progress of submitted tickets or access requests in real time.
- **Use the Self-Service Portal:** Explore the EasyVista portal and find solutions, browse FAQs, and access common services.
- **Ensure Timely Support:** Follow best practices to ensure your requests are processed quickly and accurately.

Creating an EasyVista ticket

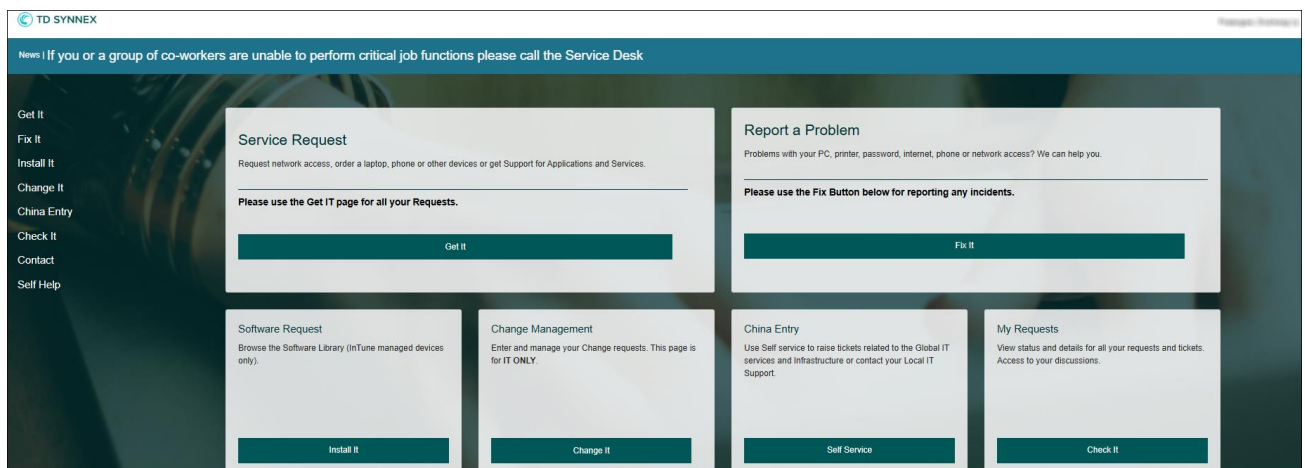

This section includes information about creating an EasyVista ticket to get the access of StreamOne Operations Hub applications.

For example, you can submit a ticket requesting access to the StreamOne Insight, Cloud Billing Connector, and Cloud Credit Connector.

To create an EasyVista ticket, perform the following steps.

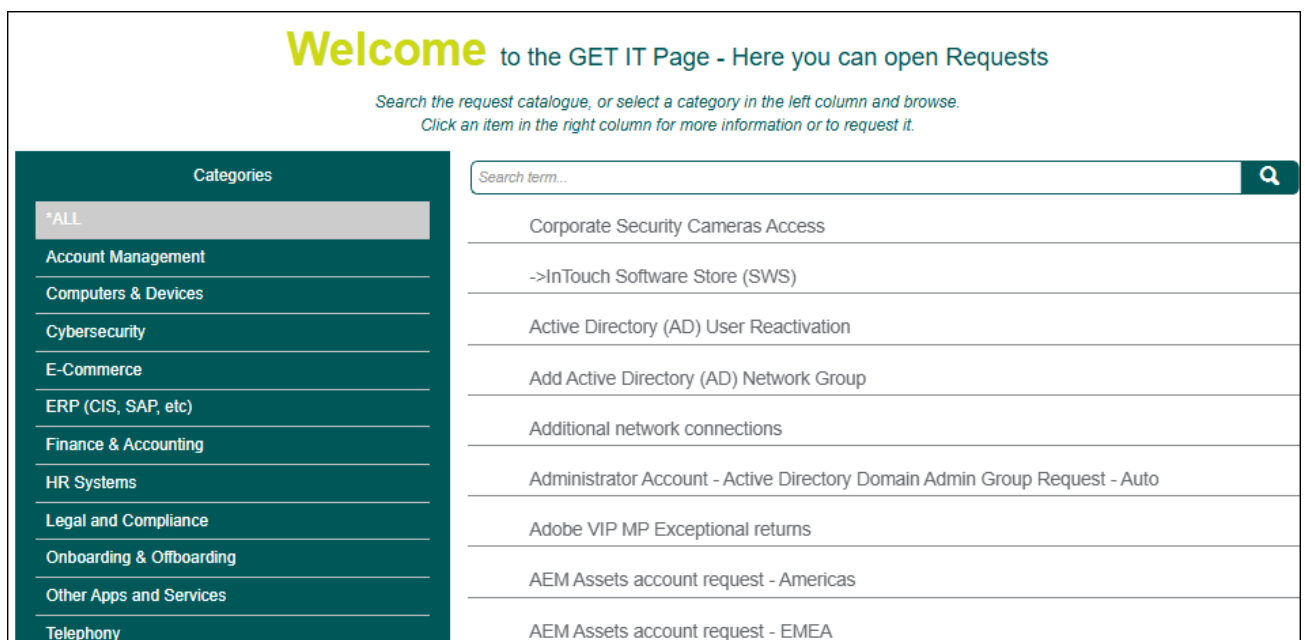

1. In the browser, enter the [TD User Portal *PROD* Link](#).

The home page is displayed.

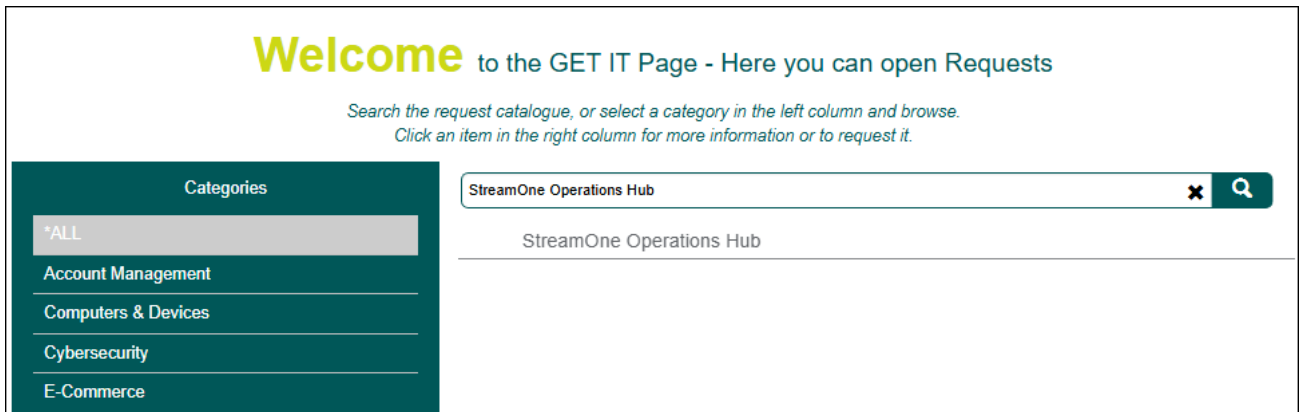

2. In the **Service Request** section, click **Get It**.

The Welcome to the GET IT page is displayed.

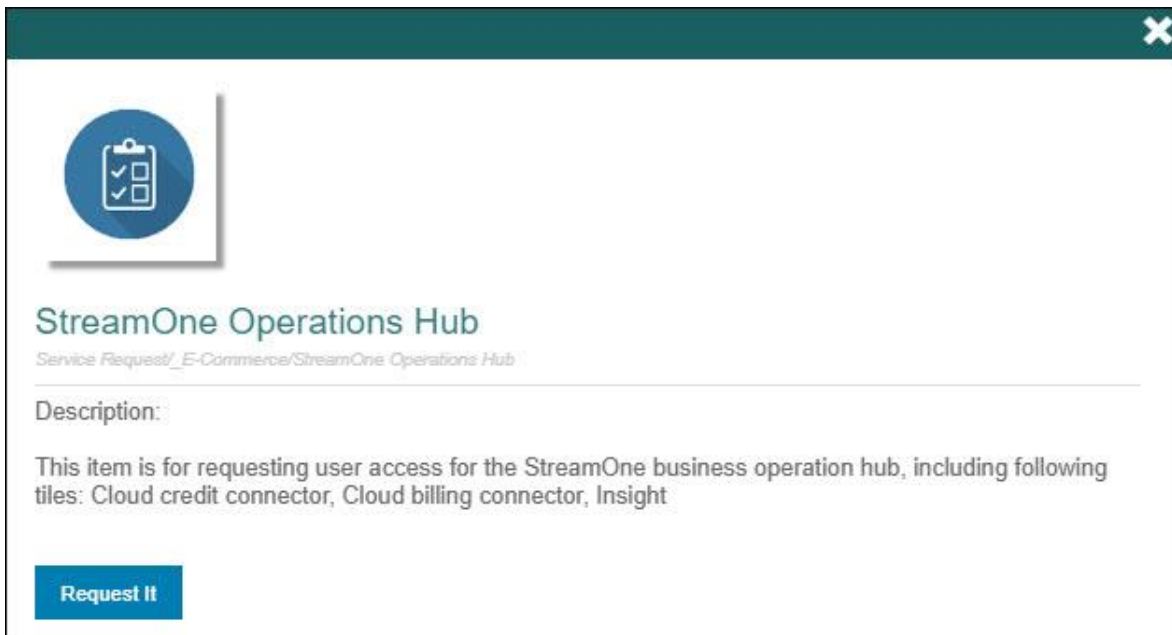

3. In the **Categories** column, in the ***ALL** or **E-Commerce** category, in the search field, search for **StreamOne Operations Hub**.

4. Click **StreamOne Operations Hub**.

The **StreamOne Operations Hub** dialog box is displayed.

5. Click **Request It**.

The **StreamOne Operations Hub** form is displayed.

StreamOne Operations Hub

Who is this for? (yourself or someone else) *

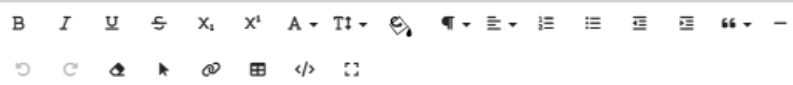

Title / Subject of request *

Select an action: *

Application name: *

Region *

Detailed description *

Current Location if different from your Home Office. *

Your Contact Information *

Please attach any helpful or useful information to this ticket

6. In the **Who is this for? (yourself or someone else)** field, click  to modify the name.
7. Enter or select the required name from the drop-down.

Who is this for? (yourself or someone else) *

Name

Note: In the **Who is this for? (yourself or someone else)** field, by default, the user's name is displayed.

8. In the **Title/Subject of request** field, enter the required subject.
Note: Fields marked with asterisk (*) are mandatory.
9. In the **Select an action** field, select the required action from the drop-down.

Select an action: *

- New Account
- Reactivate Account
- Change Permissions

- **New Account:** Provides access by creating a new account for users who are new to the StreamOne Operations Hub.
- **Reactivate Account:** Accounts inactive for 180 days are deactivated. To regain access, submit an EasyVista ticket.

- Select **Reactivate Account** and enter your TD SYNnex email ID in the “**Specify account in which new user is being created under**” field.

Select an action: *

Reactivate Account

Application name: *

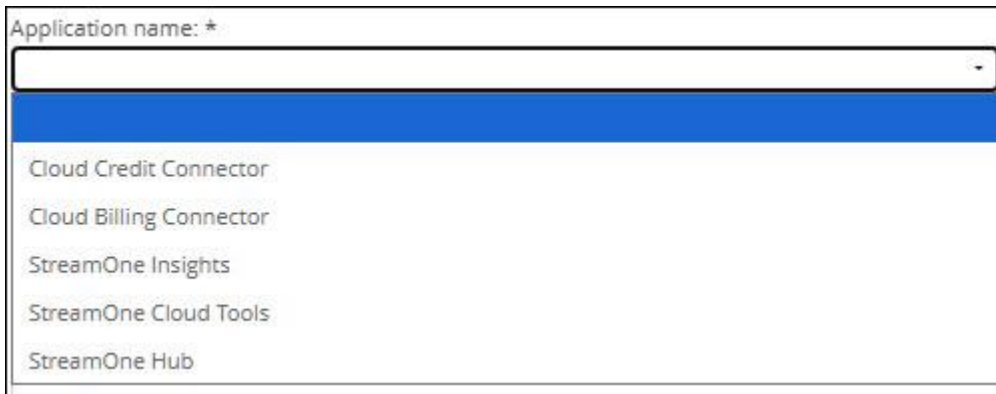

Cloud Credit Connector

Specify account in which new user is being created under: *

username@tdsynnex.com

- **Change Permissions:** Modifies the existing user's permissions. For example, if a user needs access to a different application, such as Cloud Billing Connector (CBC), they should select the Change Permissions option.

10. In the **Application name** field, select the required application name for which you want access, such as Cloud Credit Connector, Cloud Billing Connector, and so on.

A screenshot of a web form. At the top, there is a label 'Application name: *' followed by a dropdown menu. The dropdown menu is open, showing a list of options: 'Cloud Credit Connector' (highlighted in blue), 'Cloud Billing Connector', 'StreamOne Insights', 'StreamOne Cloud Tools', and 'StreamOne Hub'.

11. After selecting Cloud Credit Connector, the **C3: list of permissions** field is displayed.

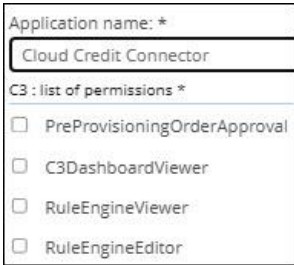

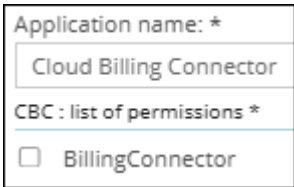

Note: The permission list varies according to the selected application name.

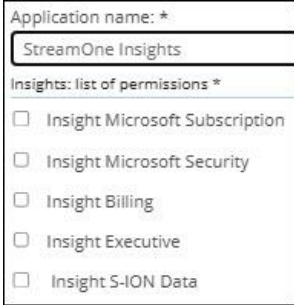

12. In the **C3: list of permissions** field, select the **C3DashboardViewer** checkbox from the drop-down.

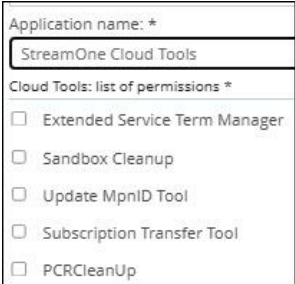

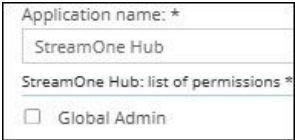

A screenshot of a web form. At the top, there is a label 'Application name: *' followed by a dropdown menu. The dropdown menu is open, showing a list of options: 'Cloud Credit Connector' (highlighted in blue), 'Cloud Billing Connector', 'StreamOne Insights', 'StreamOne Cloud Tools', and 'StreamOne Hub'. Below the dropdown menu, there is a label 'C3 : list of permissions *' followed by a list of checkboxes: 'PreProvisioningOrderApproval', 'C3DashboardViewer', 'RuleEngineViewer', and 'RuleEngineEditor'. At the bottom of the form, there is a disclaimer: 'Disclaimer: "C3DashboardViewer" permission is required in order to get Rule engine permission'.

The following table provides information about the application name and the relevant permissions

Ok Cancel

- An EasyVista ticket is created, and a notification is displayed along with the ticket number.

✓ Your Request has been generated with Number SR00827147 and Status Manager Approval ✕

- The approval process consists of two levels:
 - First level:** Approval by the direct reporting manager.
 - Second level:** Approval by the business group responsible for the specific region. Each region has an assigned group of approvers who review and approve the request.
- After the ticket is approved by the manager and the business group, the user receives an email notification confirming that the request has been approved or declined.
