Overview

The **End Customer Churn** dashboard provides the S-ION business executives with a comprehensive view of month-over-month churn trends, by tracking end customers added and removed each month. This dashboard allows users to extensively analyze churn patterns by applying filters such as country, vendor, and date range, providing significant insights on end customer retention and loss.

About this document

This document provides step-by-step instructions to understand and navigate through the End Customer Churn dashboard.

Key features:

- **Monthly Churn Trend Visibility:**
Provides a rolling view of end customers that were gained and lost each month, allowing quick identification of emerging churn patterns.
- **Regional and Vendor-Level Insights:**
Supports filtering by country and vendor, highlights high-churn areas, and assesses performance across strategic partners and geographies.
- **Retention and Growth Evaluation:**
Helps evaluate the effectiveness of the end customer acquisition and retention strategies, by evaluating their direct impact on churn trends.
- **Business Impact Awareness:**
Offers a consolidated view of the overall churn impact, supporting informed, data-driven decisions and improving customer retention and long-term revenue stability.

Getting Started

This section includes the following topics.

- [Obtain access to the environment](#)
- [Sign in to the End Customer Churn dashboard](#)

Obtain access to the environment

Ensure that you have obtained permissions to access the corresponding dashboards of StreamOne Insight.

The End Customer Churn dashboard includes the following environment.

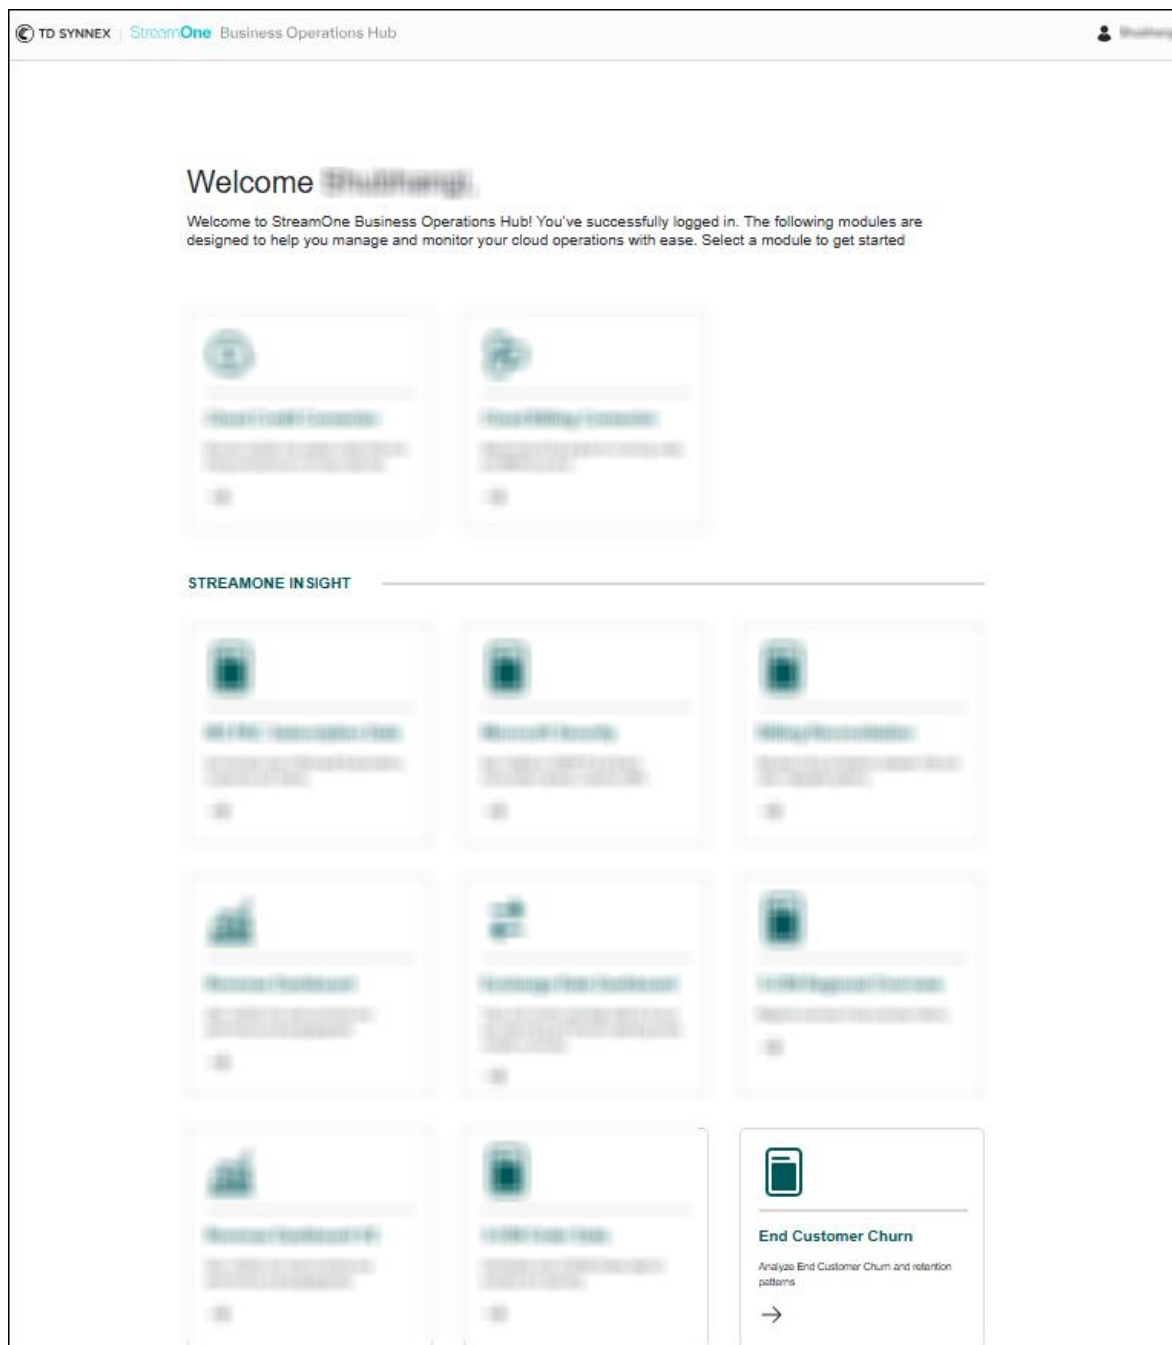

Environment	Web address
PROD	https://streamone-hub.tdsynnex.org

Sign in to the End Customer Churn dashboard

To sign in to the End Customer Churn dashboard, perform the following steps.

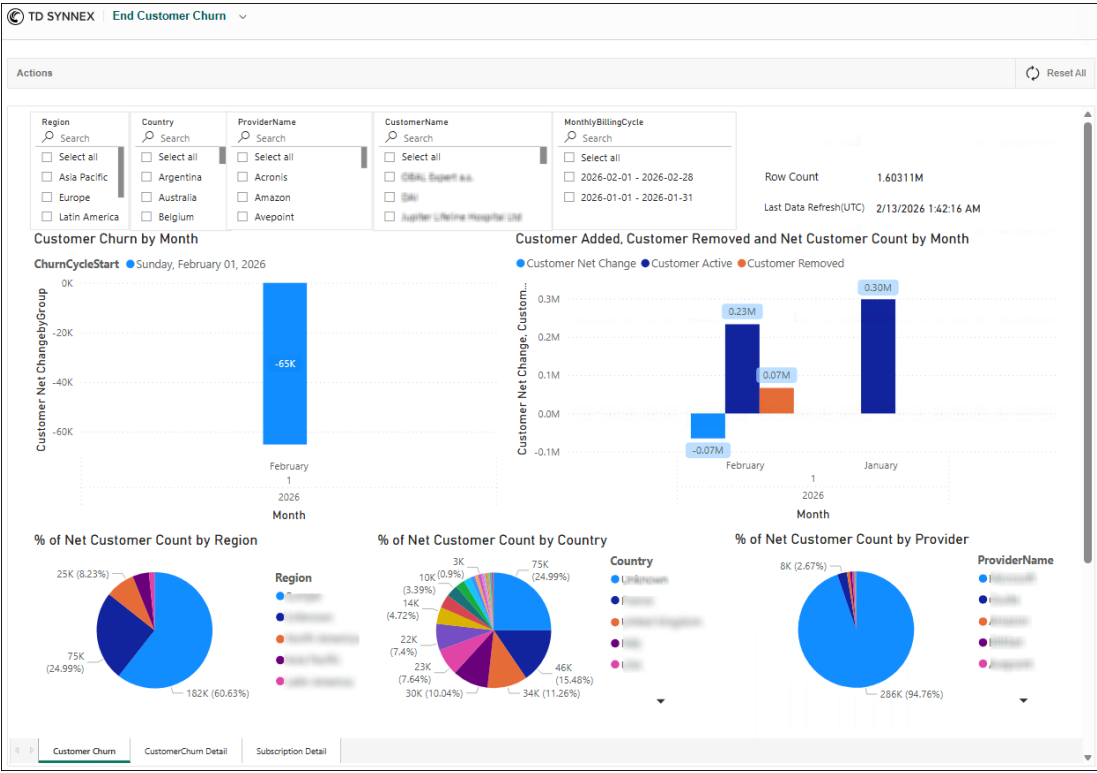

1. In the browser, enter <https://streamone-hub.tdsynnex.org>.

The **StreamOne Business Operations Hub** page is displayed.

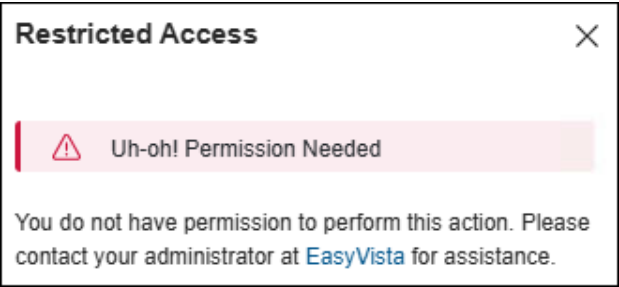

2. In the **STREAMONE INSIGHT** section, click **End Customer Churn**.

The **End Customer Churn** dashboard page is displayed.

- On the End Customer Churn dashboard page, by default the **Customer Churn** tab is displayed. It includes tabs such as CurstomerChurn Detail and Subscription Detail. When you log in to the dashboard, by default, the data for the current login date is displayed.
- To view the unfiltered data of a dashboard, at the top-right, click the **Reset All** button.

Note: When you click the **End Customer Churn** application, if you do not have the required permissions, the **Restricted Access** dialog box is displayed along with a link that navigates to a document to create an EasyVista ticket. The error message varies according to the permissions.

The following table includes common filters of the End Customer Churn dashboard.

Filter	Filter Name	Description
Region  Search ☐ Select all ☐ Asia Pacific ☐ Europe	Region	Displays the records for the selected region such as Asia Pacific, Europe, and so on.
Country  Search ☐ Select all ☐ Argentina ☐ Australia	Country	Displays the records for the selected country.
ProviderName  Search ☐ Select all ☐ Acronis ☐ Amazon	ProviderName	Displays the records for the selected provider.
CustomerName  Search ☐ Select all ☐ Citrix, Support & Co ☐ Dell	CustomerName	Displays the records for the selected customer.
MonthlyBillingCycle  Search ☐ Select all ☐ 2026-01-01 - 2026-01-31 ☐ 2025-12-01 - 2025-12-31	MonthlyBillingCycle	Allows you to view the billing data for specific months.

The following table includes filter specific to the CustomerChurn Detail and Subscription Detail tabs.

Filter	Filter Name	Description
ChurnState Search Select all Added Initial Removed	ChurnState	Displays the record for the added, current, and removed customers according to the selected option such as <i>Added</i> , <i>Removed</i> , and so on.

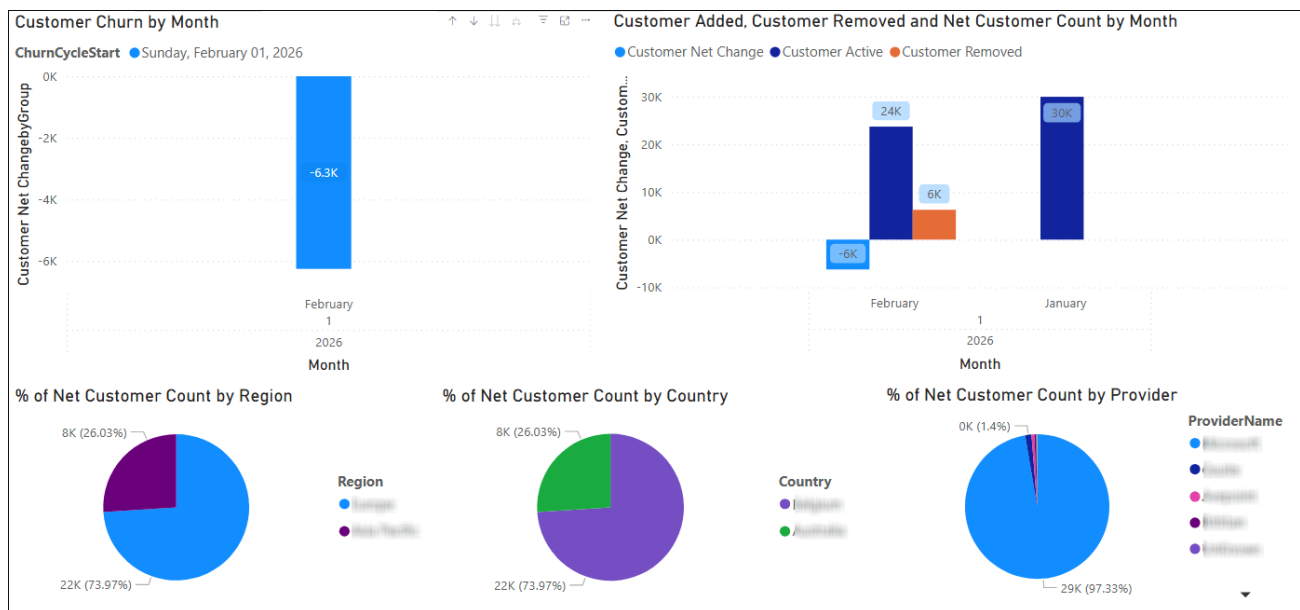

Viewing filtered results

You can view filtered results for the following tabs.

- [Customer Churn filtered results](#)
- [CustomerChurn Detail filtered results](#)
- [Subscription Detail filtered results](#)

Customer Churn filtered results

The filtered view of the **Customer Churn** tab displays the following.

According to the selected filters such as region, country, vendor, you can view customer churn details including:

- **Customer Churn by Month:** The number of customers who stopped using the service or product each month, specifying monthly trends in the customer loss.
- **Net Customer Count by Region:** The total number of customers in various regions.
- **Net Customer Count by Country:** The total number of customers in each country, that compares customer distribution across countries.
- **Net Customer Count by Provider:** The total number of customers associated with various providers. You can view the vendors' performance in customer retention and acquisition.
- **Customers Added, Removed, and Net Customer Count by Month:** The number of new customers added, the number of customers who left, and the net change in the customer count. It provides a comprehensive view of the overall customer growth or decline.

CustomerChurn Detail filtered results

The CustomerChurn Detail tab provides a detailed tabular view and in-depth analysis of the customers according to the filters selected on the Customer Churn tab, such as region, country, vendor, and so on.

ChurnCycleStart	Country	CustomerKey	ProviderName	CustomerName	ChurnState
1/1/2026	Belgium	247987	Microsoft	Microsoft Belgium	Initial
1/1/2026	Belgium	257987	Microsoft	Microsoft Belgium	Initial
1/1/2026	Belgium	307987	Microsoft	Microsoft	Initial
1/1/2026	Belgium	387987	Microsoft	Microsoft Belgium	Initial
1/1/2026	Belgium	687987	Microsoft	Microsoft	Initial
1/1/2026	Belgium	302987	Microsoft	Microsoft	Initial
1/1/2026	Belgium	837987	Microsoft	Microsoft	Initial
1/1/2026	Belgium	147987	Microsoft	Microsoft Belgium	Initial

Subscription Detail filtered results

The Subscription Detail tab gives users a clear and structured view of all active customer subscriptions. It shows subscription-level activity that affects overall churn trends in the Customer Churn dashboard. The tab displays detailed, filter-based information in a tabular format, allowing users to sort and analyze subscriptions by region, country, vendor, and other criteria.

ChurnCycleStart	Region	Country	ProviderName	CustomerKey	CustomerName	SubscriptionKey
Sunday, February 01, 2026	Asia Pacific	Australia	Microsoft	107987	Microsoft Australia	c95e97b3-8000-4070-8000-800080008000
