Overview

The Partner Customer Relationship (PCR) Cleanup application is an automation tool that allows partners to bulk-remove the relationship between a reseller and a customer, when the customer is no longer associated with the reseller.

About this document

This document provides step-by-step instructions to understand and navigate through the PCR Cleanup dashboard.

Key features:

- Identifies and removes obsolete or failed Partner Customer Relationship (PCRs).
- Bulk removal of Partner–Customer relationships, allowing resellers to quickly disconnect multiple customers.
- Supports cleanup across subscriptions, domains, or entire tenants.
- Reduces backlog and ensures smoother order processing.

Getting Started

This section includes the following topics.

- [Obtain access to the environment](#)
- [Sign in to the PCR Cleanup dashboard](#)

Obtain access to the environment

Ensure that you have obtained permission to access the corresponding dashboards of StreamOne Hub.

The PCR Cleanup dashboard includes the following environment.

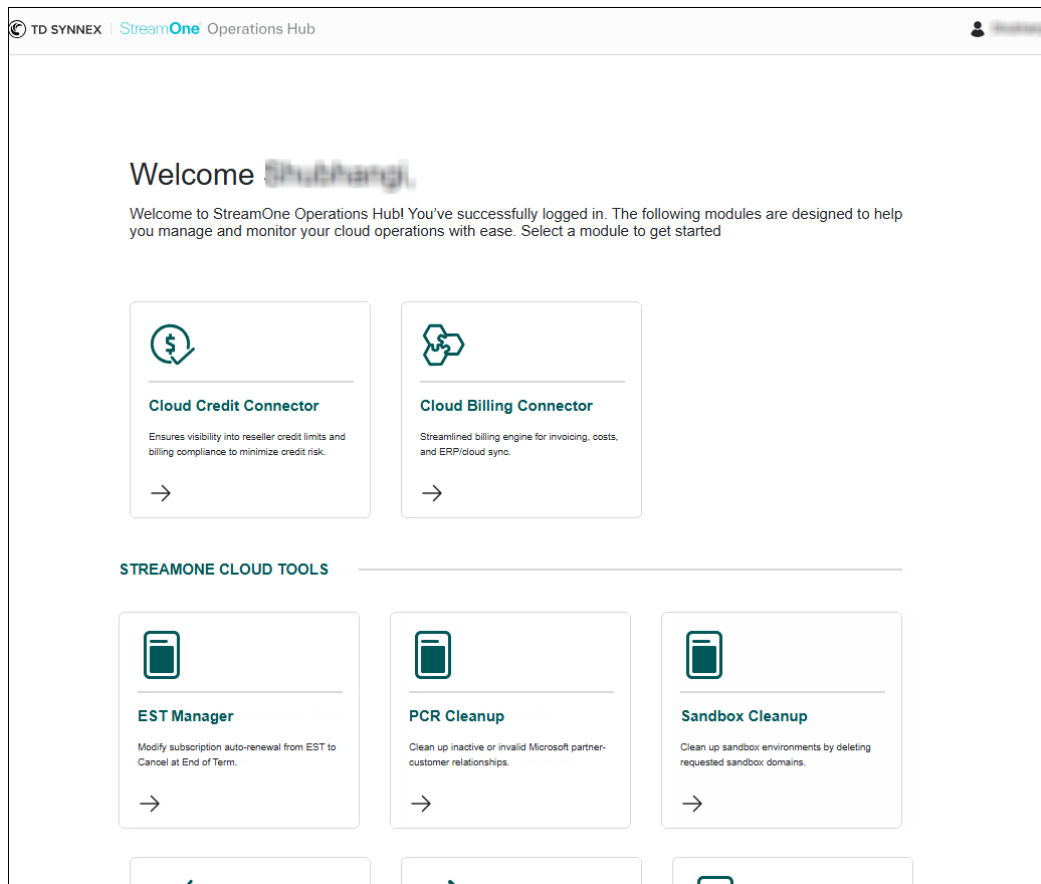

Environment	Web address
PROD	https://streamone-hub.tdsynnex.org

Sign in to the PCR Cleanup dashboard

To sign in to the PCR Cleanup dashboard, perform the following steps.

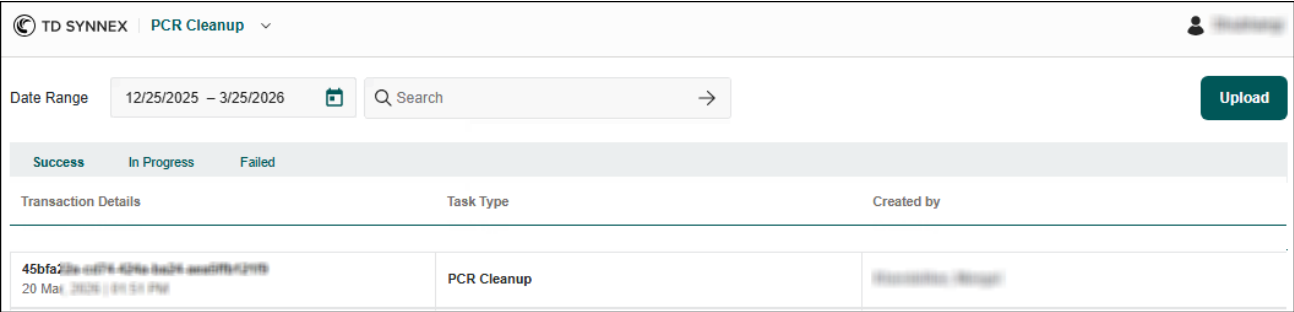

1. In the browser, enter <https://streamone-hub.tdsynnex.org>.

The **StreamOne Operations Hub** page is displayed.

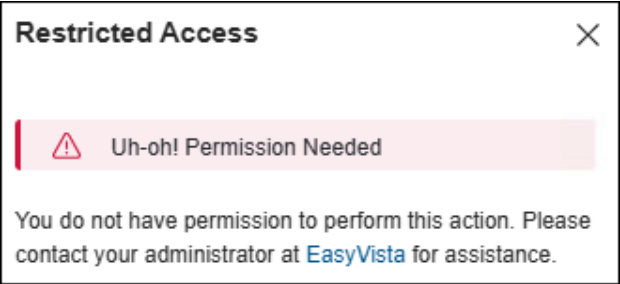

2. In the **STREAMONE CLOUD TOOLS** section, click **PCR Cleanup**.

The **PCR Cleanup** dashboard page is displayed.

Note: When you click the **PCR Cleanup** application, if you do not have the required permissions, the **Restricted Access** dialog box is displayed along with a link that navigates to a document explaining how to create an EasyVista ticket. The error message varies according to the permissions.

The following table includes filters of the PCR Cleanup dashboard.

Filters	Image	Description
Date		Displays data for the selected date range.
Search		Search specific records within the selected date range.

The following table includes tabs of the PCR Cleanup dashboard.

Tab	Description
Success	Displays records for the successfully uploaded subscriptions.
In Progress	Displays records for the subscriptions being processed.
Failed	Displays the subscriptions that encountered errors or did not complete.

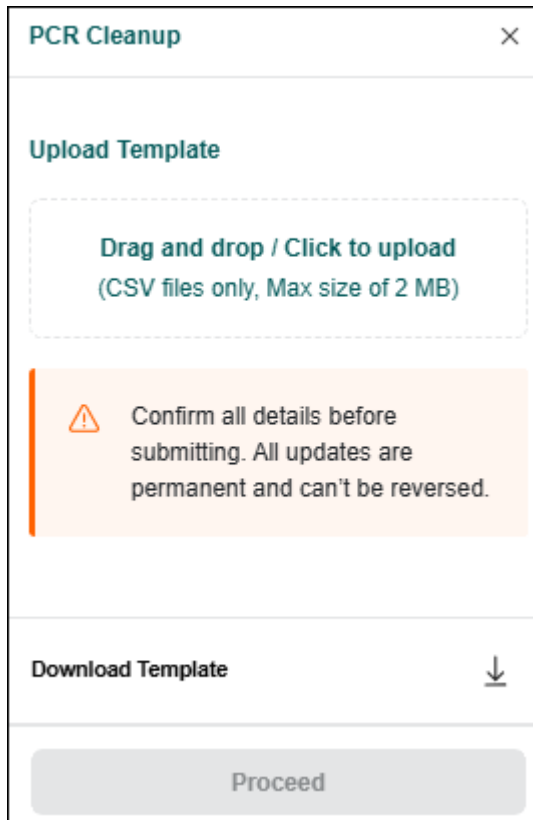

Viewing the PCR Cleanup process

The cleanup process detects and clears outdated Partner Customer Relationship between partners and customer tenants, and ensures accurate access, security, and operational hygiene.

To view the PCR Cleanup process, perform the following steps.

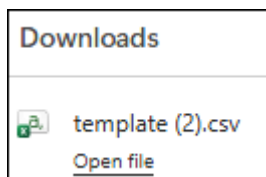

1. On the PCR Cleanup page, click the **Upload** button.

The **PCR Cleanup** dialog box is displayed.

2. To download a template, click .

The template is downloaded and saved in the **Downloads** folder of your computer.

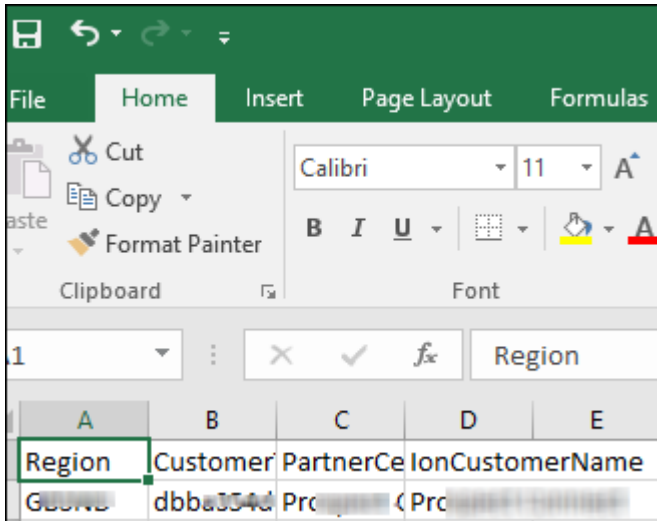

3. Click **Open file**.
4. Enter the required details in the following columns of the CSV template file:

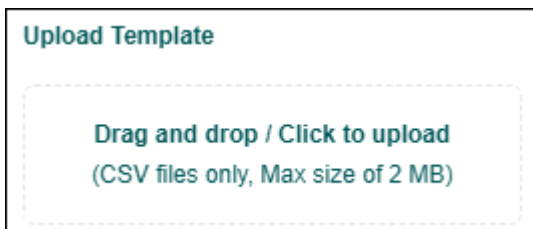

- Region
- CustomerTenantId
- PartnerCenterName
- IonCustomerName

Note: Ensure that you have the required details before downloading the CSV template file.

5. After entering the details, click **Save**.

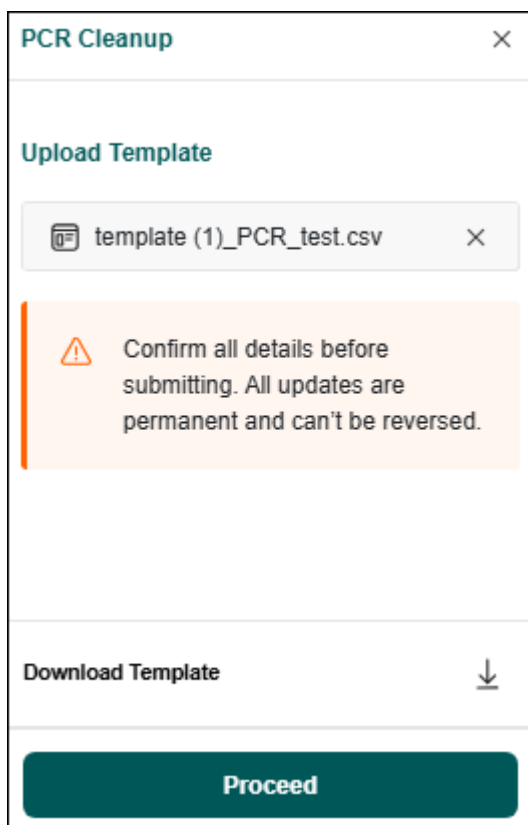

6. To upload a file, in the **PCR Cleanup** dialog box, go to the **Upload Template** section.

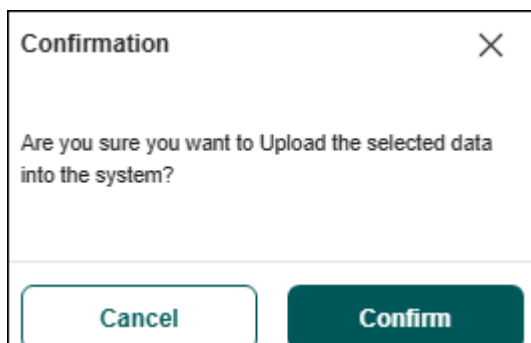

7. Drag and drop, or upload a file from the corresponding location on your computer.

The file is uploaded.

8. Click **Proceed**.

A confirmation message is displayed.

9. Click **Confirm**.

The record is displayed on the **In Progress** tab.

10.Refresh the screen and click the **Success** tab.

The subscriptions are successfully uploaded and displayed on the Success tab.
