Overview

The **S-ION Order Data** dashboard provides S-ION business executives a consolidated view of order activity and sales performance across regions, resellers, customers, and products. You can analyze the order volume, customer behavior, and reseller performance within a selected time period, helping to drive data-informed business decisions.

About this document

This document provides step-by-step instructions to understand and navigate through the S-ION Order Data dashboard and includes

The objectives, scope, and functional components of the **S-ION Order Data** dashboard.

Key features:

- Display order volume and revenue by country.
- Track total sales for a selected date range.
- Identify top customers by order count.
- Analyze reseller performance and order fulfillment.
- Review product catalog and product-level sales.
- Compare average order value across products.

Getting Started

This section includes the following topics.

- [Obtain access to the environment](#)
- [Sign in to the S-ION Order Data dashboard](#)

Obtain access to the environment

Ensure that you have obtained permissions to access the corresponding dashboards of StreamOne Insight.

The S-ION Order Data dashboard includes the following environment.

Environment	Web address
PROD	https://streamone-hub.tdsynnex.org

Sign in to the S-ION Order Data dashboard

To sign in to the S-ION Order Data dashboard, perform the following steps.

1. In the browser, enter <https://streamone-hub.tdsynnex.org>.

The **StreamOne Business Operations Hub** page is displayed.

The screenshot shows the StreamOne Business Operations Hub interface. At the top, the header includes the TD SYNEX logo and the text 'StreamOne Business Operations Hub'. A user profile icon is in the top right corner. Below the header, a 'Welcome' message is displayed, followed by a brief introduction and a prompt to select a module. Two modules are featured in a grid: 'Cloud Credit Connector' and 'Cloud Billing Connector'. Below this is a section titled 'STREAMONE IN SIGHT' which contains a grid of eight modules: 'MS PAC Subscription Data', 'Microsoft Security', 'Billing Reconciliation', 'Revenue Dashboard', 'Exchange Rate Dashboard', 'S-ION Regional Overview', 'Revenue Dashboard V2', and 'S-ION Order Data'. Each module card includes an icon, a title, a brief description, and a right-pointing arrow.

Welcome [User Name]

Welcome to StreamOne Business Operations Hub! You've successfully logged in. The following modules are designed to help you manage and monitor your cloud operations with ease. Select a module to get started

Cloud Credit Connector
Ensures visibility into reseller credit limits and billing compliance to minimize credit risk.
→

Cloud Billing Connector
Streamlined billing engine for invoicing, costs, and ERP/cloud sync.
→

STREAMONE IN SIGHT

MS PAC Subscription Data
Summarized view of Microsoft Subscriptions, Customers and Orders.
→

Microsoft Security
Key insights on GDPR, Fraud Event, Consumption Spikes, Customer MFA.
→

Billing Reconciliation
Reviews billing consistency between ION and other integrated systems.
→

Revenue Dashboard
Gain visibility into revenue trends and performance across geographies
→

Exchange Rate Dashboard
Track and monitor exchange rates to ensure accurate billing and financial reporting across multiple currencies.
→

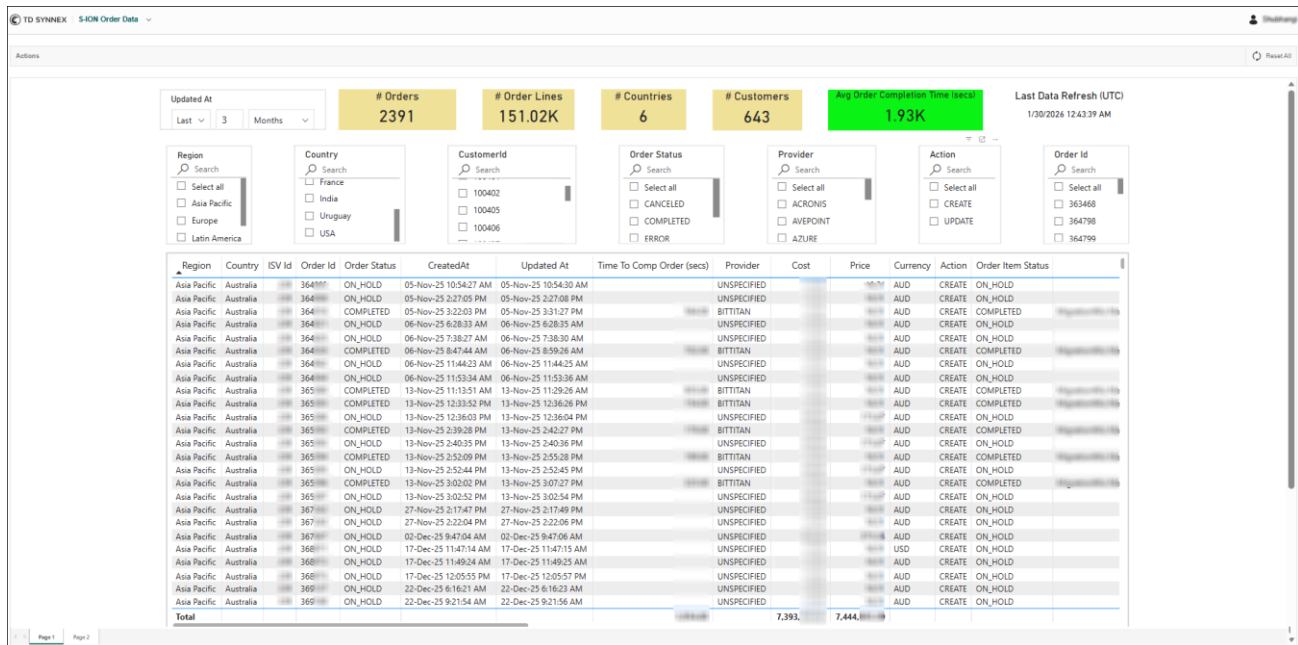

S-ION Regional Overview
Regional overview of key business metrics.
→

Revenue Dashboard V2
Gain visibility into revenue trends and performance across geographies
→

S-ION Order Data
Centralized view of SION Orders data for analytics and reporting
→

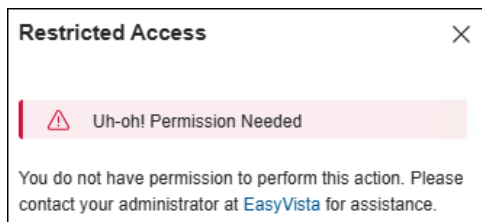

2. In the **STREAMONE INSIGHT** section, click **S-ION Order Data**.

The **S-ION Order Data** dashboard page is displayed.

- On the S-ION Order Data dashboard page, by default the **Page1** tab is displayed. When you log in to this dashboard, data for the current login date is displayed.
- To view the unfiltered data, at the top-right, click the **Reset All** button.
- This dashboard includes widgets such as Orders, Order Lines, Countries, Customers, and Avg Order Completion Time (sec), providing the count or details of each metric dynamically, based on selected filters such as country, region, or order status.

Note: When you click the **S-ION Order Data** application, if you do not have the required permissions, the **Restricted Access** dialog box is displayed along with a link that navigates to a document explaining how to create an EasyVista ticket. The error message varies according to the permissions.

The following table includes common filters of the S-ION Order Data dashboard.

Filter	Filter Name	Description
Region  Search ☐ Select all ☐ Asia Pacific ☐ Europe	Region	Displays the records for the selected region such as Asia Pacific, Europe, and so on.
Country  Search ☐ Select all ☐ Argentina ☐ Australia	Country	Displays the records for the selected country.
CustomerId  Search ☐ Select all ☐ 1000000 ☐ 1000000	CustomerId	Displays the records for the selected customerId.
Order Status  Search ☐ Select all ☐ CANCELED ☐ COMPLETED	Order Status	Displays the records for the selected order status such as completed, canceled and so on.
Provider  Search ☐ Select all ☐ ACRONIS ☐ AVEPOINT	Provider	Displays the records for the selected provider.
Action  Search ☐ Select all ☐ CREATE ☐ UPDATE	Action	Displays data according to the selected option such as <i>CREATE</i> or <i>UPDATE</i> .

Filter	Filter Name	Description
Order Id Search Select all 363 364	Order Id	Displays the records for the selected order Id.
Updated At Last 3 Months	Updated At	Allows you to view the order data for the specific period.

Viewing filtered results

You can view filtered results for the following tabs.

- [Page 1 filtered results](#)
- [Page 2 filtered results](#)

Page1 filtered results

The Page 1 filtered view provides a detailed tabular view of order information according to the selected filters such as country, region, order status, customerId, and so on. This view displays detailed order information, including order attributes, total cost and price values, and the status of ordered items, providing a clear and actionable understanding of order activity across various parameters.

Page 2 filtered results

The Page 2 tab filtered results displays a graphical visualization of the average time required to complete an order, according to the filters selected on the Page 1 tab, such as region, country, provider, and so on. This includes the end-to-end order lifecycle from order creation to fulfillment and converts that data into clear, easy-to-interpret charts.

This view helps users quickly understand how long orders are processed, identify delays and compare performance across different countries, regions, providers, or order statuses. By transforming raw order timing data into visual insights, the dashboard provides more informed decisions around process improvement, efficiency forecasting, and operational optimization.
